## **Introduction**

Hello and welcome to this special report.

So you say you want to get rich fast. Right? In this special report, you are going to learn three secrets you can implement right now that will help you to attract *everything* you need to get rich.

You'll find out how perceiving the reality can set you free from the lies we have been fed about wealth and getting rich quick. I'll also show you how holding onto the truth that you were born to be rich will speed up your success rate.

And we'll discuss how focusing on the work at hand can bring you money and fortune. Lastly you will learn a simple technique to pay off your debts without borrowing money.

These principles are effective, I have tested them with great success. My clients, listeners, and subscribers also applied them in their lives to lead the life of power, prosperity and peace, progress, happiness and fulfilment.

## **What You See Is What You Get.**

With our current state of development in life we can do more damage to our lives if we ignore to see our world as it is. **The rich planet which has everything we need to live abundant life.**

The world offers ample opportunities and resources to us to live with purpose. To have what we want, become what we're born to be, and do what we enjoy doing.

However, pessimistic people easily influence many of us who are not well equipped with the truth. Those who have been led off track their lives are full of worries, debts, expenses and bills. They think of these things. They foresee these things coming to them. Then, they experience these things in their lives.

When you're a child, behold, you saw everything created being beautiful and good. You knew no lack, no limitations.

Naturally you knew that you could have anything you wanted, and become whatever you wanted to be.

We all believed this until grown-ups taught us otherwise. The problem is we tend to accept everything we hear and taught without confirming if it is true.

Consequently, we get caught in our own manufactured world of lack, poverty, struggle and limitations.

### **1. See The Reality.**

**“Do you not say, ‘There are still four months and comes the harvest?’ Behold, I say to you, lift up your eyes and look at the fields, for they are already white for the harvest”, said Jesus.**

You too can stop struggling by remembering the truth about you and your world. The truth that **there is enough for you to meet all your needs and live abundantly.**

If you want to be rich you must adopt abundant mentality. You can be rich if you hold a picture of yourself as a rich personality. Things are brought into reality by thinking about them.

Everything you see around you was once a thought in someone's mind. The universe was a thought in God's mind before he created it, including everything in it. The chair you're now sitting on was also an idea in somebody's mind. Whoever created the first chair pictured himself or herself sitting on it before he can take the material from nature to make a copy of his/her mental chair.

How did you learn to drive? Did you just got into the car and turned the key on, then drove off? Probably not. I bet that you first formed a clear mental picture of yourself getting into the car, starting the car, then driving off. You could see yourself driving in the traffic calmly, going to places, and parking the car without hassle.

And so it was with everything you got in your life, although you sometimes got more than you expected because of the grace of God who is able to supply all your needs and more than you can think.

Thought is the only power that can create whatever you want. Thought is a force that flows in and out of you. Just prove this to yourself by sitting down without doing anything. Thoughts will come and go as they wish in your mind.

You have been created in the image of God. "Ye are gods.", said Jesus. Higher Power gave you the ability to create whatever you want. You were born with this power. Your power to create what you want is in your thoughts.

Higher Power, God, Spirit, Universal Mind or whatever name you call this Living Spirit is in all, and is One. The Spirit flows in-and-out of you as thought power. God creates things that you give attention in your thoughts. Thoughts that release more power are those you hold in your mind. You create the physical equivalent of the thoughts that you harbour in the inner most parts of your being. This has to be so because God gave you the freedom to create.

You can make your world heaven or hell by the power of your thoughts. So be nice to yourself by thinking the thoughts of wealth. **"For I know the plans I have for you", says the Lord "They are plans for good and not for disaster, thoughts of peace and expected end."**

Simply hold a picture of yourself as a wealthy person in your mind and see wonderful things happening in your life. There will be times that you'll encounter situations that will make you feel that you are moving backwards. When you meet with such situations I encourage you to hold on to your picture of prosperity. Be persistent. And the situation will just disappear or way around it will be shown to you by the Spirit that is in all. **For you present troubles are small and won't last very long. Yet they produce for you a glory that vastly outweighs them and will last forever!**

Everything you ever wanted is available. It's just waiting for you to collect and put it in a place that's convenient for you to use it.

## **2. Continue To See The Reality.**

If you want to get rich real fast you must be persistent in holding the picture of yourself as a wealthy personality in your mind. Remember that if you think of yourself as rich then you will become rich. The thoughts that you entertain will be created in your outer world. "As a man thinketh in his heart so he is.", Proverbs 23:7

As much as you know that physical exercise is good, it is also important that you understand that you need to train your mind to think abundant thoughts. The development of mind is awesome, promising benefits in this life and life to come.

It is simple to think good and abundant thoughts. You can do this by the method of substitution. Substitute thoughts of evil with good, thoughts of poverty with wealth, thoughts of hate with love.

If you think thoughts of prosperity persistently when surrounded by mediocrity, then you will experience wealth in your outer world. Always think of yourself as rich as you would like to be, and not only when you are happy and things are going your way.

### The Persistent Widow

There was a Judge in a certain city, who neither feared God or cared about people. A widow of that city came to him repeatedly, saying, 'Give me justice in this dispute with my enemy'. The Judge ignored her for a while, but finally he said to himself, 'I don't fear God or care about people, but this widow is driving me crazy. I am going to see that he gets justice, because she is wearing me out with her constant requests.'

Persistence is a key to overcoming adversity. With every thought of prosperity you hold in your mind when faced with trying circumstance, you multiply the strength of that thought, and it is communicated to the Higher Power. This thought of wealth will travel distant places to all parts of the world at a lightning speed, for all I know, and it will attract the good you want towards you.

God is the source of wealth. All good things come from Him. And if you want to be rich you must relate yourself to God by thinking thoughts of wealth. Your prayers are answered according to the way you think. If you understand this then nothing can stop you from getting what is yours. Nobody, no power, nor principality, neither this world's economic system will prevent you from getting rich.

See the world and yourself as God sees it. See yourself from Higher Life viewpoint. Behold it is good. Treat yourself to the best life can offer. If you continually see yourself as a multimillionaire you were born to be then you will become rich. Treat every person you come across as a multimillionaire, although that person might not be aware of it. We are living in the best times.

As I write this report I can see you reading it. That's marvellous. Remember what you get is what you see.

Therefore, whenever any thought of lack or poverty comes to you substitute it with the thought of wealth immediately. The equivalent of the thought of riches will be made reality in your life. Think only good thoughts. Good thoughts are powerful and influential. You'll attract favourable circumstances for yourself.

And when you see or think of a person as an enemy or friend, he or she will become your enemy or friend. It is those thoughts we entertain in our minds that we experience in the outer life.

### 3. Focus On The Work You Have Today.

**"You don't get paid for the hour. You get paid for the value you bring to the hour." - Jim Rohn**

If all that we are going to do is thinking about wealth, then we cannot become rich. Working or personal action is important if we're to succeed in this world of ours. Although at times we get financial rewards from transactions that are not related to the work we did.

This is a very important point in getting rich, you must combine thoughts of wealth with personal action. Many people communicate their thoughts to God clearly, whether being aware of it or not, but they never get what they want because they fail to put in some effort on their part.

We have discovered that when we do our daily tasks with all our heart, mind and strength new sources of money and better opportunities come our way. And sometimes money comes from places we never expected. Contrary to the popular belief of hunting for opportunities, or giving attention to the job we would like to do. Or working very hard for every cent we earn.

Even if you are a cleaner, farmer, business owner, or president of a company you can make a difference where you are now. Every time when you finish your work check it to see if you did everything well. "We must overcome the notion that we must be regular...It robs you of a chance to be extraordinary and leads you to the mediocre." - Uta Hagen

Stop wasting time complaining about your boss, or thinking that your boss doesn't know what he is doing. Let go of all your fears and suspicions that others want to harm or cheat you, perhaps take what is yours. They cannot. God is in control.

Your role is to perform the work you have well. If there are no opportunities for promotion where you are now, God will make you to see another opportunity for development somewhere else. He has to because he wants you to be rich and successful.

People who do their work without being watched, and without trying to impress their employers will never lack of anything. They are in demand. They are indispensable. And they are hard to find. Every employer of mankind is looking for such people. And you can become one of them by following what we teach you.

Customer wants the best services and products. An entrepreneur who provides good services and products will have all the clients he/she needs.

You can be rich, powerful and great if you become responsible for your actions. A responsible person is the one who do the job that he is given without complaining. He or she understands that his work or business has contributed towards his development.

So focus on the work at hand. Do it well. Mind your own business. And you'll have anything you want.

## Quotation

'Our deepest fear is not that we are inadequate.  
Our deepest fear is that we are powerful beyond measure.  
It is our light, not our darkness, that most frightens us.

We ask ourselves, who am I to be brilliant, gorgeous, talented, and fabulous?  
Actually, who are you not to be?  
You are a child of God.

Your playing small doesn't serve the world.  
There's nothing enlightened about shrinking so  
that other people won't feel insecure around you.

We are all meant to shine, as children do.  
We are born to make manifest the glory of God that is within us.  
It's not just in some of us, it's in everyone.

And as we let our own light shine,  
we unconsciously give other  
people permission to do the same.  
As we are liberated from our own fear,  
our presence automatically liberates others.'

#### 4. Eliminate Debts

If have debts you can eliminate them one by one. Debts are the most sources of trouble in many families as they eat away the whole household income. People who are worried about bills are unproductive. To get rich, for them, becomes speculation because to get rich require performance. And you cannot perform well if you are worried about money.

Sit down and take out a pen a pen, paper and calculator, start writing down all the debts you have. Begin by paying off the small debt. Once finished, tackle the next smallest debt.

And depending on your situation, inform your creditors about your intentions. You can make arrangements with them to restructure your payments in order to allow you to finish the small debts fast. Most of them will agree to your idea. And you must also assure them that you'll pay all your debts including interests. You must stick to your promise.

You will do well to cut off some unnecessary spending like magazine subscriptions. If you subscribed to some newspapers or magazines that do not help you to achieve your dreams is time to cancel your subscriptions. You don't need to buy anything that does not help you to better your life.

With this extra money in hand you can pay yourself more and hammer your debts. Or even take some extra courses that will help you to develop your career. Thus, you will increase your market value and earning power. Or whatever you want that contributes to beauty and power.

You can become debt-free in 36 months or less using this method.

Ask for professional help if you need it.

## In Conclusion

Now we've discovered that we must see our world as it is. That is the rich and beautiful planet, which offers plenty of material wealth and opportunities to make money.

You must learn this truth and remember it always. And never forget it even when you perform your daily tasks.

We learned that we must also be effective. We should not neglect focusing on the work we have now. Because it is by serving the others that we will be given what belongs to us. More and better opportunities will come to us as we perform our duties.

Lastly you learned a simple technique you can use to eliminate debts without borrowing and finally become wealthy.

So fix your attention to the good things in your life and those lovely things that are coming to you. Yes, the good you want is here. And the things you want are coming to you as fast as can receive and use them.
